

ICOC 2018

International Conference on Organometallics and Catalysis

13th December - 16th December, 2018
Goa, India

ICOC- 2018

This meeting is expected to intensify scientific interaction among leading researchers around the world from both industry and academia. It will enable the researchers to identify possible areas where collaborative work may be useful for better understanding of a complex system or designing new catalysts and materials.

The scientific programme will include the broad spectrum of organic and inorganic chemistry covering organometallics and catalysis, photocatalysis, organocatalysis, asymmetric catalysis and computational chemistry. The conference will include oral and poster presentations.

We are looking forward to welcoming you in Goa

ABOUT THE VENUE

The Conference will take place at 'Holiday Inn Resort', located on the picturesque Mobor beach in South Goa. 'Holiday Inn Resort' is 51 Km away from the Goa International Airport (Dabolim Airport).

Goa is a small state situated on the western coast of India. It was liberated from the rule of the Portuguese in 1961 and is the 25th State of India. Located on the Western Ghats of Konkan, Goa is known as the smallest and the fourth smallest populated state in India. Goa is bounded by Maharashtra to its north, eastern and southern boundaries were formed by Karnataka, while the western coast is formed by the Arabian Sea.

International and domestic tourists visit this tiny state every year, in a large number. Tourists are attracted to its golden beaches, architecture and places of worship. It is a biodiversity hotspot and is rich in flora and fauna.

Goa is known for sharing harmonious relationship among its various religious communities, living peacefully for generations.
